I Document Overview

This document serves as a training guide and support manual for dispensers of Schedule II through Schedule V controlled substances, as well as gabapentin, in Mississippi who use Bamboo Health's PMP Clearinghouse repository to report their dispensations. It includes such topics as:

- Reporting requirements for dispensers in or into the State of Mississippi
- Data file submission guidelines and methods
- Creating a PMP Clearinghouse account
- Creating a data file
- Uploading or reporting data
- Understanding and correcting errors

This guide is intended for use by all dispensers in or into the State of Mississippi required to report the dispensing of controlled substances.

2 Data Collection and Tracking

2.1 Data Collection Overview

The Mississippi Prescription Monitoring Program (PMP) is Mississippi's solution for monitoring Schedule II–V controlled substances and specified noncontrolled drugs (gabapentin) dispensed in Mississippi. Mississippi State Statutes 73-21-127, 73-21-97, and 73-21-103 set forth the legal requirements for reporting Schedule II–V controlled substances and gabapentin dispensed in Mississippi for use in the PMP system. Please click here to view any additional PMP-controlled substances:

<https://pmp.mbp.ms.gov/sites/default/files/2023-09/Article%203-%20Uniform%20Controlled%20Substances%20Law%20%28Schedule%20Control%20Substance%29.pdf>.

Information about controlled substance dispensing activities is reported regularly to the State of Mississippi through the authorized data collection vendor, Bamboo Health, Inc. (Bamboo Health). Pharmacies and other dispensers (clinics, etc.), including mail order pharmacies that routinely mail orders into the state, are required by law to provide such reporting to the data collection vendor in approved formats and frequencies.

The primary beneficiaries of the Mississippi PMP are patients throughout Mississippi. Because of the Mississippi PMP, healthcare providers can make better and more informed treatment decisions that allow them to provide the most appropriate medical care for their patients. However, all Mississippi citizens ultimately benefit through improved medical care and reductions in the abuse and diversion of controlled substance prescription drugs.

2.2 Reporting Requirements

Reporting of dispensing information is mandatory and required every 24 hours or the next business day by the State Board of Pharmacy for any entity dispensing controlled substances and specified noncontrolled in or into the State of Mississippi, except for the dispensing of controlled substance drugs prescribed by a veterinarian residing in the State of Mississippi (b) (i).

The prescriptions tracked shall be prescriptions for controlled substances listed in Drug Enforcement Agency Schedule II, III, IV, or V and specified noncontrolled substances, including gabapentin, authorized by the State Board of Pharmacy that are dispensed to residents in the State of Mississippi by licensed pharmacies, nonresident pharmacies, institutions, and dispensing practitioners, regardless of dispenser location. This includes mail order pharmacies (ii).

Dispensing by a veterinarian is exempt; however, prescriptions written by a veterinarian and filled by a pharmacy are required to be reported. Direct administration of a controlled substance to the body of an ultimate user (such as in an inpatient setting) is exempt from reporting. Any quantity of drug dispensed that is limited to an amount adequate to treat the ultimate user involved for 48 hours or less is exempt from reporting. Controlled substance and specified noncontrolled prescriptions dispensed for patients in nursing homes, ICFMRs, and assisted living facilities ARE required to be reported.

3 Data Submission

This chapter provides information and instructions for submitting data to the PMP Clearinghouse repository.

3.1 Timeline and Requirements

- Pharmacies and software vendors can create their PMP Clearinghouse accounts upon receipt of this guide. See [Creating Your Account](#) for more information.
- You can begin submitting data to PMP Clearinghouse as soon as your account has been created. Dispensers are required to transmit their data using PMP Clearinghouse in accordance with the guidelines outlined under [Reporting Requirements](#).
- If a pharmacy does not dispense any controlled substances for the preceding reporting period, it must file a zero report for that reporting period, or it will be considered noncompliant. See [Zero Reports](#) for additional details.
- As of January 1, 2016, PMP Clearinghouse no longer accepts file submissions in the ASAP 3.0 format.

3.2 Upload Specifications

Files should be in the ASAP 4.2B format as defined in [Appendix A: ASAP 4.2B Specifications](#). Files for upload should be named in a unique fashion, with a prefix constructed from the date (YYYYMMDD) and a suffix of “.dat”. An example file name would be “20220415.dat”. All of your upload files will be kept separate from the files of others.

Reports for multiple dispensers/pharmacies can be in the same upload file in any order.

Prescription information must be reported daily for the preceding 24 hours, unless an exemption has been obtained from the Mississippi State Board of Pharmacy.

4 Accessing Clearinghouse

This chapter describes how to create your PMP Clearinghouse account and how to log in to the PMP Clearinghouse web portal.

4.1 Creating Your Account

Prior to submitting data, you must create an account. **If you are currently registered with the Bamboo Health PMP Clearinghouse system, you do not need to register for a new account—you will be able to add Mississippi to your existing account for data submissions.** If you have an existing PMP Clearinghouse account, please refer to [Adding PMPs to Your Upload Account](#) to add PMPs to your account.

Notes:

- Data from multiple pharmacies can be uploaded in the same file. For example, chain pharmacies may send in one file containing controlled substance dispensing information for all their pharmacies licensed in the PMP. Therefore, chains with multiple stores need only to set up one account to upload a file.
- PMP Clearinghouse allows users to submit data through the web portal via manual entry (UCF) or upload of ASAP files. For users who prefer an encrypted transfer method, SFTP access is also available. You may set up your SFTP account during the account creation process.
- If you need to make changes to an existing PMP Clearinghouse upload account, please refer to [Managing Your Upload Account](#).

Perform the following steps to create an account:

1. Open an internet browser window and navigate to the **PMP Clearinghouse Account Registration** page located at <https://pmpclearinghouse.net/registrations/new>.

Account Registration

Profile Details * Indicates Required Field

Email Address *

Password *

Password confirmation *

Personal Information

First name * Middle name Last name *

Searching for DEA or NPI will autopopulate your information if found.

DEA NPI

Employer Information

Name *

2. Complete your **Profile Details**.

Profile Details * Indicates Required Field

Email Address *

Password *

Password confirmation *

- a. Enter your current, valid email address in the **Email Address** field.

Note: The email address you provide here will act as your username when logging into the PMP Clearinghouse system.

- b. Enter a password for your account in the **Password** field, then re-enter it in the **Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

3. Complete your Personal and Employer information, noting the following:
- Required fields are marked with a red asterisk (*).
 - You may be able to auto-populate your Personal and/or Employer information by entering your (or your employer's) **DEA, NPI**, and/or **NCPDP** number, then clicking the search icon (🔍). If the number you entered is found, your information will automatically be populated.

Searching for DEA or NPI will autopopulate your information if found.

DEA NCPDP

4. If secure file transfer protocol (SFTP) is required, complete the **Data Submission** section of the page.

Notes:

- If SFTP access is not required, you do not need to complete the **Data Submission** section, and you may continue to step 5.
- You may add SFTP access to an existing account. Please refer to [Adding SFTP Access to an Upload Account](#) for complete instructions.

Data Submission

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.

☐ Enable SFTP Access

☐ Enable Real-Time Access

- a. Click to select the **Enable SFTP Access** checkbox.

The SFTP access fields are displayed.

Data Submission

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.

☒ Enable SFTP Access

SFTP Username

SFTP Password

SFTP Password Confirmation

Password must include at least 8 characters, including 1 capital letter, 1 lowercase letter, and 1 special character (such as !, @, #, \$)

☐ Enable Real-Time Access

- b. Your **SFTP Username** is automatically generated using the first five characters of your employer's name + your employer's phone number. For example, if you entered "Test" as your employer's name and "555-555-5555" as your employer's phone number, your SFTP username would be *test5555555555*.
- c. Enter a password for your SFTP account in the **SFTP Password** field, then re-enter it in the **SFTP Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

This password will be input into the pharmacy software so that submissions can be automated.

Notes:

- This password can be the same as the one previously entered under Profile.
- Unlike the Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is sftp.submissions.healthcarecoordination.net/.
- Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).

5. In the **Submission Destinations** section of the page, select the PMP(s) for which you will be submitting data.
6. Click **Submit**.

The request is submitted to the PMP administrator for each of the PMPs you selected for data submission, and the **Registration Information Overview** page is displayed.

Thank you for registering with PMP Clearinghouse, a service of PMP AWARxE.

A link to verify your email address has been sent. You must confirm your email address before you can login to PMP Clearinghouse. Your data submission request has been sent to your requested state(s) for processing. Upon approval, you may begin submitting prescription data.

- Click **Continue**.

The **PMP Clearinghouse Login** page is displayed. However, you will not be able to log in until your account has been approved. Once the PMP administrator has approved your request, you will receive a welcome email instructing you to confirm your account. Follow the instructions in the email to confirm your account and begin submitting data to PMP AWARxE.

4.2 Logging In to PMP Clearinghouse

1. Open an internet browser window and navigate to the **PMP Clearinghouse Login** page located at https://pmpclearinghouse.net/users/sign_in.

2. Enter the email address you used to create your account in the **Email Address** field.
3. Enter your password in the **Password** field.

Note: If you have forgotten your password, have completed your registration but did not receive the account confirmation email, or your account has been locked and you did not receive the email with instructions for unlocking your account, please refer to the links in the Help section of the page. For detailed instructions on resetting your password, refer to [Resetting Your Password](#).

4. Click **Login**.

The **PMP Clearinghouse** home page is displayed.

5 Data Delivery Methods

This chapter provides information about data delivery methods you can use to upload your controlled substance reporting data file(s) to PMP Clearinghouse.

For quick reference, you may click the desired hyperlink in the following table to view the step-by-step instructions for your chosen data delivery method:

Delivery Method	Page
Secure FTP	10
Web Portal Upload	10
Manual Entry (UCF)	12
Zero Reports	15

5.1 Secure FTP

If you are submitting data to PMP Clearinghouse using SFTP, you must configure individual subfolders for the PMP systems to which you are submitting data. These subfolders must be created in the *homedir/directory* folder, which is where you are directed once authenticated, and **should be named using the PMP abbreviation (e.g., DC, GU, KS, MS, PR, etc.)**. Data files not submitted to a PMP subfolder will be required to have a manual PMP assignment made on the [File Listings](#) page. Please refer to [PMP Subfolders](#) for additional details on this process.

1. If you do not have a PMP Clearinghouse account, perform the steps in [Creating Your Account](#).
- Or
2. If you have a PMP Clearinghouse account but have not enabled SFTP access, perform the steps in [Adding SFTP Access to an Upload Account](#).
3. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix A: ASAP 4.2B Specifications](#).
4. SFTP the file to sftp.submissions.healthcarecoordination.net/.
5. When prompted, enter the username and password you created when setting up the SFTP account.
6. Place the file in the appropriate PMP-abbreviated directory.
7. You can view the results of the transfer/upload on the Submissions page in PMP Clearinghouse.

Note: If you place the data file in the root directory and not a PDMP sub-folder, a  symbol with a mouse over hint of “**Determine PMP**” is displayed on the **File Status** page, and you will be prompted to select a destination PMP to which the data should be sent.

5.2 Web Portal Upload

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix A: ASAP 4.2B Specifications](#).
3. [Log in to PMP Clearinghouse](#).

4. From the home page, click the **File Upload** tab.

Account	File	State	Records	Warnings	Errors	Submitted	Status	Status Report

The **File Upload** page is displayed as shown on the following page.

File Upload

Submit New File For Consolidation

Use this screen to submit files to the PMP system.

How to Upload Your Files

1. Click the "Browse" button to select a file on your local computer
2. Click the "Upload" button to begin the uploading process.
3. A confirmation message appears when the upload is finished.

Select PMP

Select a PMP...

File Upload:

Browse

Upload

5. Select the PMP to which you are submitting the file from the drop-down list in the **Select a PMP** field.
6. Click the **Browse** button, located next to the **File Upload** field, and select the file you created in step 2.
7. Click **Upload**.

A message is displayed prompting you to confirm the submission.

8. Click **Upload** to continue with the file submission.

Your file is uploaded, and you can view the results of the upload on the File Submissions page.

Note: When uploading a file, the file name must be unique. If the file name is not unique, a message is displayed indicating that the file name has already been taken.

5.3 Manual Entry (UCF)

You can manually enter your prescription information into the PMP Clearinghouse system using the Universal Claim Form (UCF) within the PMP Clearinghouse web portal. This form allows you to enter patient, prescriber, dispenser, and prescription information.

Please refer to [Reporting Requirements](#) for the complete list of reporting requirements.

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **UCF Submissions**.

The **UCF Listings** page is displayed.

5.4 Zero Reports

If you have no dispensations to report for the preceding reporting period, you must report this information to the Mississippi PMP.

You may submit your zero report through the PMP Clearinghouse web portal by following the steps below or via SFTP using the ASAP Standard for Zero Reports. For additional details on submitting via SFTP, please refer to [Appendix B: ASAP Zero Report Specifications](#).

You may submit zero reports through the PMP Clearinghouse web portal using one of the following methods:

- [Submit a single-click zero report](#)
- [Create a new zero report](#)

5.4.1 Submit a Single-Click Zero Report

Single-click zero reporting allows you to create a profile for the pharmacy that includes its identifiers (e.g., DEA, NPI, NCPDP), so you do not have to enter it each time you submit a zero report.

To create a pharmacy profile and begin submitting single-click zero reports:

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **Zero Reports**.

The **Zero Report Listings** page is displayed.

- Enter the start date and end date for the zero report in the **Start date** and **End date** fields using the **MM/DD/YYYY** format. You may also select the dates from the calendar that is displayed when you click in these fields.

The image shows a date selection interface. At the top, there's a header with navigation arrows and the text "February 2019". Below this is a calendar grid with days of the week (Su, Mo, Tu, We, Th, Fr, Sa) and dates (27, 28, 29, 30, 31, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 1, 2, 3, 4, 5, 6, 7, 8, 9). Below the calendar is a text input field with a placeholder "mm/dd/yyyy" and a dropdown menu to its right.

8. Enter your NCPDP, DEA, and/or NPI numbers, if required by your PMP.

Note: If any of these fields are required by your PMP, they will be marked with a red asterisk (*).

9. Click **Submit**.

Your zero report is submitted to PMP Clearinghouse and will be displayed on the **Zero Report Listings** tab.

6 Data Compliance

This chapter describes how to view the status of your submitted data files and how to correct errors.

6.1 File Listings

The **File Listings** page displays information extracted from the data files submitted to PMP Clearinghouse, including the file name, number of records identified within the data file, number of records that contain warnings, number of records that contain errors, and the date and time of submission. Click **File Submissions** to access this page.

The screenshot shows the 'File Listings' page with a table titled 'Data File Submissions Status (Last 30 Days)'. The table has columns for Account, File, State, Records, Warnings, Errors, Submitted, Status, and Status Report. There are three entries listed, all from 'SMITHERMANS PHARMACY'. The first entry, 'pa_test.dat', has a status of 'Error Threshold Exceeded'. The second and third entries have a status of 'Success' (indicated by a green checkmark).

Account	File	State	Records	Warnings	Errors	Submitted	Status	Status Report
SMITHERMANS PHARMACY	pa_test.dat	PA	45	-	-	06/07/2019 02:50PM	Error Threshold Exceeded	45 of 45
SMITHERMANS PHARMACY	Gee903f3-7704-4ee4-9288-058a5d1a4d13p.dat	DO	20			05/31/2019 06:13PM	✓	Report
SMITHERMANS PHARMACY	Gee903f3-7704-4ee4-9288-058a5d1a4d13.dat	DO	20			05/31/2019 05:46PM	✓(test file)	Report

- The **Status** column, located at the end of each row, displays the file status.
- The **Status Report** column, located next to the **Status** column, contains a link to the status report for that file. Please refer to [File Status Report](#) for more information on how to read and interpret this report.

If a file contains errors, it will have a  symbol with a mouse over hint of “**Pending Dispensation Error**” within the status column. You can click the error icon in the **Status** column to display the **Error Correction** page, which allows you to view the records containing errors (see [View Records](#) for more information). Please refer to [Error Correction](#) for instructions on how to correct errors.

If a file is unable to be parsed into the PMP Clearinghouse application, it will have an  symbol with a mouse over hint of “**ASAP Errors**.” Clicking the icon will display the detailed error, which indicates what element was missing or malformed. To correct these errors, a new file must be submitted to PMP Clearinghouse. It is not necessary to void a file that failed parsing since it was not successfully submitted to PMP Clearinghouse.

If you submitted a file via SFTP without using a PMP-specific sub-folder, the file will be displayed, and  symbol will be displayed in the status column with a mouse over hint of “**Determine PMP**.” Clicking the icon will prompt you to select a destination PMP to which the data file will be transferred.

Set Destination PMP:

Problem determining destination :
No destination pmp indicated.

[Update](#)

[Cancel](#)

Advanced Options ▾ Search...

Records	Warnings	Errors	Submitted	Status
0			06/21/2021 07:41PM	
1			06/21/2021 07:37PM	Determine PMP

If you submitted a zero report via file upload or SFTP that is malformed or missing information, the file will be displayed, and an exclamation mark icon inside a red triangle will be displayed in the status column. Hovering over the icon will display the “Invalid Zero Report” error. Clicking on the icon will display the detailed error message. To correct these errors, a new zero report must be submitted.

Error example:

6.2 UCF Listings

The **UCF Listings** page displays information about the UCFs submitted to PMP Clearinghouse, including the number of warnings and errors. Click **UCF Submissions** to access this page.

Showing 1 to 4 of 4 entries

Previous [1](#) Next

The **Status** column, located at the end of each row, displays the UCF’s status. Data entered into the UCF is validated upon submission; therefore, successfully submitted UCFs should not contain errors. However, if you have attempted to submit a UCF with errors and did not immediately correct those errors and submit the record, you have up to one (1) year to make updates to these records in Clearinghouse.

- I. To view pending or incomplete submissions, click the **Manage Claim Forms** tab.

Showing 1 to 1 of 1 entries

Previous 1 Next

The **Correct** button, located at the end of each row, allows you to make corrections to the record.

6.3.2 Error Correction via PMP Clearinghouse

Once you click *Correct* on the **Error Correction** page, the **Errors** page is displayed. This page displays detailed information about the records within a selected data file that need correcting, including all the fields contained within the record and the originally submitted value, and allows you to correct those records.

File Listings File Errors Dispensary Errors			
Dispensary Errors Manage And Resolve Submission Issues Prescription Number: 0100755 DEA Number: BE9432042 NCPDP Identifier: 0068568 Filled At: 2019-02-13			
Field	Submitted Value	Corrected Value	Messages
National provider identifier	1104923507	1104923507	✓
NCPDP identifier	0068568	0068568	✓
DEA number	BE9432042	BE9432042	Warnings: DEA number warning: DEA number not found in registry. ✓
Name			Errors: Name value must be present.
Phone number	4017704455	4017704455	✓

- The **Corrected Value** column allows you to enter a new value to correct the error.
- The **Message** column displays the relevant error message explaining why the value entered in that field did not pass the validation rules.

For files that failed to parse, the error identified is "best effort" and any information we could not parse is listed as "unparseable" in the file. In this case, you must submit a corrected file.

To correct records:

1. Identify the fields that require corrections. Fields containing errors are highlighted in red, as shown in the screenshot above.
2. Enter the corrected value in the **Corrected Value** column.
3. Click **Submit**.
 The error is processed through the validation rules.
 - a. If the changes pass the validation rules, the record is valid, and a message is displayed indicating that the errors have been corrected. The [File Listings](#) and [Error Correction](#) pages are also updated.
 - b. If the changes fail the validation rules, a message is displayed indicating that there was a problem correcting the errors, and the **Message** column is updated with any new error message. Repeat steps 2–3 until the errors have been corrected and the file can be successfully submitted.

6.3.3 Error Correction via File Submission

The ASAP 4.2B standard requires a pharmacy to select an indicator in the **DSP01** (Reporting Status) field. These indicators allow you to submit new records, revise and resubmit records, and void (delete) erroneous records. These actions are indicated by supplying one of the following values in the **DSP01** field:

- **00 New Record** – indicates a new record

- **01 Revise** – indicates that one or more data elements in a previously-submitted record have been revised

To revise a record:

- Create a record with the value “**01**” in the **DSP01** field.
- Populate the following fields with the same information originally submitted in the record that is being revised:
 - **PHA03** (DEA Number)
 - **DSP02** (Prescription Number)
 - **DSP05** (Date Filled)
 - **DSP06** (Refill Number)
 - **DSP09** (Quantity Filled)
- Fill in all other data fields with the correct information. This information will override the original data linked to the fields referenced in step 2.
- Submit the record.

Important Note: When submitting revisions for the Prescription Number (DSP02), Pharmacy DEA (PHA03), Date Filled (DSP05), Quantity Filled (DSP09), and/or Refill Number (DSP06) fields, a Void submission (02) on the original record should be processed before re-submitting a New Record (00). Submitting Revise (01) for one of these five fields will process as a new prescription and both submissions will appear. All other field revisions may be processed as 01.

- **02 Void** – indicates that the original record should be removed

To void a record:

- Create a record with the value “**02**” in the **DSP01** field.
- Fill in all other data identical to the original record.
- Submit the record. This will void the original record.

7 Email Reports

Email status reports are automatically sent to all users associated with a specific data submitter account. These reports are used to identify errors in files that have been submitted and to confirm zero report submissions. This chapter describes the status reports you may receive via email.

7.1 File Failed Report

You will receive the *File Failed Report* if a submitted file was not able to be parsed and was not processed into PMP Clearinghouse. The report contains a description of the error encountered within the file. In the event of a failed file, a new file should be submitted with the necessary corrections.

Note: Failed files are not parsed into Clearinghouse and do not require a voided ASAP file to remove it from the system.

An example *File Failed Report* is provided below.

SUBJ: Mississippi ASAP file: fake-test3.txt - Parse Failure

BODY:

Error Message

Failed to decode the value '04' for the bean id 'transactionControlType'.

Summary:

- * File Name: fake-test3.txt
- * ASAP Version: 4.2B
- * Transaction Control Number: unparseable
- * Transaction Control Type: unparseable
- * Date of Submission: April 30, 2022

NOTE: This file could not be received into the system because the system could not recognize its content as a valid ASAP format. Action is required to resolve the issues and a subsequent file should be submitted. As such the information provided in this report is "best effort" and any information we could not parse is listed as "unparseable" in the fields above.

7.2 File Status Report

The *File Status Report* serves as notification that a data file is currently being parsed by the PMP system.

This report identifies specific records in the submitted data file and returns identifying information about the record, including specific errors identified during the validation process. It uses fixed-width columns and contains a summary section after the error listings. Each column contains a blank two-digit pad at the end of the data.

The columns are set to the following lengths:

Column	Length
DEA	11 (9 + pad)
NCPDP	9 (7 + pad)
NPI	12 (10 + pad)
Prescription	27 (25 + pad)
Filled	10 (8 + pad)
Segment	18 (16 + pad)
Field	18 (16 + pad)
Type	9 (7 + pad)
Message	Arbitrary

The *File Status Report* notifies you of the following scenarios:

- **Total records:** The total number of records contained in the submitted data file.
- **Duplicate records:** The number of records that were identified as already existing within the PMP system. Duplicate records are not imported to prevent improper patient information.
- **Records in process:** The number of records remaining to be processed into the system (usually only displays a number if the file has not finished loading at the time the report is sent out).

Note: Records remaining to be processed will continue to be processed even after the status report is sent.

- **Records with errors:** The number of records that contain errors. These errors must be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no errors in the data. Please refer to [Error Correction](#) for instructions on correcting errors.
- **Records with warnings:** The number of records that contain warnings. These warnings do not need to be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no warnings in the data.
- **Records imported with warnings:** The number of records with warnings that were imported. If a record contains both warnings and errors, the errors must be corrected to be submitted to the system. Please refer to [Error Correction](#) for instructions on correcting errors.
- **Records imported without warnings:** The number of records without warnings that were imported.

Note: The initial File Status Report is sent out two (2) hours after the file has been submitted to the system. Additional reports will be sent out every 24 hours if errors continue to be identified within a submitted data file.

An example *File Status Report* is provided on the following page.

SUBJ: Mississippi ASAP file: fake-test3.txt - Status Report

BODY:

DEA	NCPDP	NPI	Prescription	Filled	Segment	Field Type	Message
BE1234567	1347347	9034618394	123486379596-0	20220808	Dispensation	refill_number	WARNING message example
DE9841394	3491849	4851947597	357199504833-345	20220808	Dispensation	days_supply	ERROR message example

Summary:

- * File Name: fake-test3.txt
- * ASAP Version: 4.2B
- * Transaction Control Number: 23489504823
- * Transaction Control Type: send
- * Date of Submission: August 9, 2022
- * Total Record Count: ###
- * Duplicate Records: ###
- * In Process Count: ###
- * Records with Error Count: ###
- * Imported Records Count: ###
- * Records Imported with Warning Count: ###

7.3 Zero Report Confirmation

You will receive a *Zero Report Confirmation* after successfully submitting a zero report to PMP Clearinghouse. This report displays the PMP to which the zero report was submitted, date range for the zero report, date the zero report was submitted to PMP Clearinghouse, and date the report was originally created.

An example *Zero Report Confirmation* is provided below.

SUBJ: ASAP Zero Report: zero_reports_20220306KSMCPS.DAT

BODY:

Summary:

- * File Name: zero_reports_20220306KSMCPS.DAT
- * PMP Name: Mississippi
- * Date Range: 2022-03-06 - 2022-03-06
- * Submission Date: 2022-03-07
- * ASAP Creation Date: 2022-03-07

8 Managing Your Upload Account

The **Account** menu option allows you to manage the information associated with your organization's upload account, including adding users, PMPs, and SFTP access to your account as well as editing your organization's account information.

Note: This chapter contains information for managing the upload account with which your user account is associated. For information about editing and managing your individual user account, including how to change your password, please refer to [Managing Your User Profile](#).

8.1 Adding Users to Your Upload Account

PMP Clearinghouse allows data submitters to add new users to the system who have the same rights and access to submitting data and viewing file status. This practice allows you to create an account to be used for a backup individual.

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Users** from the **Account** drop-down menu.
The **Account Users** page is displayed.

4. Click **New User**, located in the top right corner of the page.

The **New Data Submitter User** page is displayed.

5. Enter the new data submitter's email address, first name, and last name in the appropriate fields.

Note: All fields are required.

6. Click **Submit**.

The user is added to the list of data submitters for your organization, and you are returned to the **Account Users** page.

7. Please inform the new user of the account creation.
 - a. The user will receive an email with a link for them to confirm their account.
 - b. Once the account has been confirmed, the user will need to navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to create a password for their account and log in.
 - c. Upon logging in, the user will be able to view all files submitted for your organization's upload account.

8.1.1 Changing Another User's Password

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Users** from the **Account** drop-down menu.

The **Account Users** page is displayed.

Email	First Name	Last Name	Organization Name	Phone Number	Admin Name	Admin Email
testy@bamboohealth.com	Testy	McTesterton	Test Pharmacy	555-123-5555	Test User	testy@bamboohealth.com
test@bamboohealth.com (Admin)	Test	User	Test Pharmacy	555-123-5555	Test User	test@bamboohealth.com

- Click the **Edit** button, located to the right of the user's information.
The **Edit Data Submitter User** page is displayed.

Edit Data Submitter User MANAGE DATA SUBMITTER USERS

Account Information

* Email

* First name

* Last name

Password
leave it blank if you don't want to change it

Password confirmation

- Enter a new password for the user in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

- Click **Submit**.
The password is changed.

8.2 Adding PMPs to Your Upload Account

If your organization needs to submit data files to an additional PMP that uses PMP AWARe, you can submit the request through PMP Clearinghouse.

1. [Log in to PMP Clearinghouse.](#)
2. Click **Account**.

3. Select **Multi State Approval** from the **Account** drop-down menu.

The **Multi State Approval** page is displayed. This page displays all states currently using the PMP AWARe system as well as your data sharing status with each state.

4. To request to submit data to another PMP, click to select the checkbox next to that PMP.

PMP Clearinghouse automatically saves your changes, and your request is submitted to the PMP administrator for review and approval. Once the request has been approved, the status for that PMP will change from “Pending” to “Approved,” and you may begin submitting data to that PMP.

Notes:

- If you are submitting data via SFTP, the file must be located in the proper subfolder to ensure delivery to the desired PMP.
- To cancel data submission to a PMP, uncheck the box for that PMP. Note that if you need to submit data to that PMP again in the future, you will have to go through the approval process again.

8.3 Adding SFTP Access to an Upload Account

If a registered upload account did not request an SFTP account during the account creation process, you can request one at any time using the **Account** menu option.

1. [Log in to PMP Clearinghouse.](#)
2. Click **Account**.

3. Select **SFTP Details**.
The **SFTP Account** page is displayed.

Note: If an SFTP account already exists for the upload account, the username is displayed on the **SFTP Account** page.

You cannot change the SFTP account username. However, you can update the password by clicking **Edit**.

4. Click **Create**.

The **Create a New SFTP Account** page is displayed.

SFTP Account CREATE A NEW SFTP ACCOUNT

Name
Username of the SFTP account.

Password

Password confirmation

5. Enter a username for the account in the **Name** field.

Notes:

- The username must contain a minimum of eight (8) characters.
- Once the SFTP account has been created, you cannot change the username.

6. Enter a password for the account in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

Once the account has been successfully created, this password will be input into the pharmacy software so that submissions can be automated.

Notes:

- This password can be the same as the one used when the upload account was created.
- Unlike your Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is sftp.submissions.healthcarecoordination.net/.
- Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).

7. Click **Create**.

The account is created, and the username is displayed.

8.4 Editing Your Upload Account

Note: This function only allows you to edit your organization's upload account. If you need to edit your individual profile information, please refer to [Editing Your Profile](#).

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Account Details**.

The **Account** page is displayed as shown on the following page.

9 Managing Your User Profile

This chapter describes how to manage your individual user profile, including how to edit your profile and manage your password.

Note: This chapter contains information for managing your individual user profile. For information about managing your organization's upload account, including how to add users, please refer to [Managing Your Upload Account](#).

9.1 Editing Your Profile

Note: This function only allows you to edit your individual profile information. If you need to edit the Organization Information, please refer to [Editing Your Upload Account](#).

1. [Log in to PMP Clearinghouse](#).
2. Click **My Profile**.

3. Select **Edit My Profile**.

Edit Profile

Profile Details * Indicates Required Field

First name * Test	Last name * User
Email * testuser@email.com	Time zone (GMT-05:00) Eastern Time (US & Canada)

☒ **Disable report emails**

Organization Information

Name: Bamboo Health Test Pharmacy
Admin: Test Admin
Admin Email: testadmin@email.com

4. Update your information as necessary, then click **Submit**.
Your changes are saved, and your updated profile is displayed.

9.2 Changing Your Password

Note: Clearinghouse passwords expire every 90 days. You can use this function to proactively change your password before it expires. If your password has already expired, or you have forgotten your password, navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to reset it. Please refer to [Resetting Your Password](#) for more information.

1. [Log in to PMP Clearinghouse](#).
2. Click **My Profile**.

3. Select **Change Password**.

A screenshot of a 'Change Password' form. The title 'Change Password' is at the top. Below it is a section titled 'Profile Details' with a note '* Indicates Required Field'. The form contains the following fields: 'Email' (pre-filled with 'testuser@email.com'), 'Current password' (with a red asterisk), 'Password', and 'Password confirmation'. A message 'we need your current password to confirm your changes' is displayed between the 'Current password' and 'Password' fields. At the bottom, there are two buttons: 'Update' (in blue) and 'Cancel' (in grey).

4. Enter your current password in the **Current Password** field.
5. Enter your new password in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

6. Click **Update**.

Your password is updated, and you will use it the next time you log in to PMP Clearinghouse.

9.3 Resetting Your Password

If you have forgotten your password or your password has expired, perform the following steps to reset it.

1. Open an internet browser window and navigate to the **PMP Clearinghouse Login** page located at https://pmpclearinghouse.net/users/sign_in.

2. Click the **Forgot your password?** link, located in the Help section of the page. The **Forgot your password?** page is displayed.

3. Enter the email address associated with your user account, then click **Send me reset password instructions**.
4. Once you receive the reset password email, click the **Change my password** link within the email.

The **Change your password** page is displayed.

Change your password

* New password

* Confirm your new password

Change my password

5. Enter your new password in the **New password** field, then re-enter it in the **Confirm your new password** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

6. Click **Change my password**.

Your password is changed, and you can now use it to log in to PMP Clearinghouse.

10 Assistance and Support

10.1 Technical Assistance

If you need additional help with any of the procedures outlined in this guide, you can:

- Contact Bamboo Health at 1-855-5MS-4PMP (1-855-567-4767);
OR

II Document Information

II.1 Disclaimer

Bamboo Health has made every effort to ensure the accuracy of the information in this document at the time of printing. However, information is subject to change.

II.2 Change Log

Version	Date	Chapter/Section	Change Made
1.0		N/A	N/A; initial publication
1.1			
1.2	08/16/2017	Appendix B	Added new appendix with ASAP zero reporting information
		Appendix C	Added new appendix with SFTP configuration information
2.0	07/01/2019	Global	Updated to current document template
			Updated screenshots to reflect updated user interface (note that this is only a cosmetic change; no functionality changes are included)
		2.1/Data Collection Overview	Updated information about state-controlled substances
		6.2/UCF Listings	Added clarification on correcting UCF errors
2.1	03/11/2020	5.4/Zero Reports	Separated into two sections (Submit a Single-Click Zero Report and Create a New Zero Report) to reflect the addition of the single-click zero report submission functionality
		5.4.1/Submit a Single-Click Zero Report	Added new section with instructions for submitting a single-click zero report
2.2	04/27/2021	1/Document Overview	Updated to reflect the new gabapentin mandate
		2.1/Data Collection Overview	
		2.2/Reporting Requirements	
		Appendix A (PHA03 & PRE02)	
2.3	05/21/2021	Appendix A: ASAP 4.2 Specifications	Updated to 4.2B version
2.4	07/19/2021	Appendix A: ASAP 4.2B Specifications	Added Section PHA13 and other notes to Appendix A

3.0	07/21/2022	Global	Updated guide to reflect Bamboo Health branding
4.0	03/05/2025	Global	Updated guide to reflect new branding guidelines
		6.2/File Listings	Updated time to edit/delete UCF from 30 days to 1 year
		6.3.3/Error Correction via File Submissions	Added additional guidance on error corrections and voiding a file
		Global	Updated sFTP hostname information
		Appendix A/ASAP 4.2B Reporting Requirements	- Replaced note for clarification for veterinarians per state's request in the PRE02 reporting field - Removed note in PRE04 per state's request - Removed note in PRE10 per state's request
4.1	2/24/2026	Appendix A/ASAP 4.2b Reporting Requirements	Updated reporting requirements for PRE05 & PRE06 from N to R per state's request.

Appendix A: ASAP 4.2B Specifications

The information on the following pages contains the definitions for the specific contents required of uploaded records in the American Society for Automation in Pharmacy (ASAP) format to comply with the Mississippi PMP requirements.

The following elements are used in each upload file:

- **Segment Identifier** – indicates the beginning of a new segment, for example, *PHA*.
- **Data Delimiter** – character used to separate segments and the data elements within a segment, for example, an asterisk (*).
Each completed field should be followed by an asterisk, and each blank field should contain a single asterisk.
If the last field in the segment is blank, it should contain an asterisk and a tilde (~).
- **Segment Terminator** – character used to mark the end of a segment, for example, the tilde (~).

Note: Field *TH09* in the Transaction Header segment contains a built-in segment terminator. Since *TH09* also signifies the end of the segment, it should contain two tildes (~~).

- **Requirement**
 - R = Required by Mississippi
 - N = Not required but accepted if submitted
 - S = Situational

Note: For more information, contact the American Society for Automation in Pharmacy for the full Implementation Guide for the ASAP Standard for Prescription-Monitoring Programs. That guide includes field lengths, acceptable attributes, and examples.

Segment	Element ID	Element Name	Requirement	Notes
TH: Transaction Header (required)				
Used to indicate the start of a transaction. It also assigns the data element separator, segment terminator, and control number.				
	TH01	Version/Release Number Code uniquely identifying the transaction. Format = x.xx	R	
	TH02	Transaction Control Number Sender assigned code uniquely identifying a transaction.	R	
	TH03	Transaction Type Identifies the purpose of initiating the transaction. 01 Send/Request Transaction 02 Acknowledgement (used in Response only) 03 Error Receiving (used in Response only) 04 Void (used to void a specific Rx in a real-time transmission or an entire batch that has been transmitted)	N	
	TH04	Response ID Contains the Transaction Control Number of a transaction that initiated the transaction. Required in response transaction only.	N	
	TH05	Creation Date Date the transaction was created. Format: CCYYMMDD.	R	
	TH06	Creation Time Time the transaction was created. Format: HHMMSS or HHMM.	R	
	TH07	File Type - P = Production - T = Test	R	
	TH08	Routing Number Reserved for real-time transmissions that go through a network switch to indicate, if necessary, the specific PMP the transaction should be routed to.	N	
	TH09	Segment Terminator Character This terminates the TH segment and sets the actual value of the data segment terminator for the entire transaction.	R	
IS: Information Source (required)				
Used to convey the name and identification numbers of the entity supplying the information.				
	IS01	Unique Information Source ID Reference number or identification number. (Example: phone number)	R	

Segment	Element ID	Element Name	Requirement	Notes
	IS02	Information Source Entity Name Entity name of the Information Source.	R	
	IS03	Message Free-form text message.	N	
PHA: Pharmacy Header (required) Used to identify the pharmacy. Note: It is required that information be provided in at least one of the following fields: PHA01, PHA02, or PHA03.				
	PHA01	National Provider Identifier (NPI) Identifier assigned to the pharmacy by CMS.	S	
	PHA02	NCPDP/NABP Provider ID Identifier assigned to pharmacy by the National Council for Prescription Drug Programs.	N	
	PHA03	DEA Number Identifier assigned to the pharmacy by the Drug Enforcement Administration.	R	If you only dispense non-controlled substances such as gabapentin and do not have a DEA number, please leave this field blank and enter your NPI in PHA01.
	PHA04	Pharmacy Name Free-form name of the pharmacy or dispensing practitioner	R	
	PHA05	Address Information – 1 Free-form text for address information.	R	
	PHA06	Address Information – 2 Free-form text for address information.	N	
	PHA07	City Address Free-form text for city name.	R	
	PHA08	State Address U.S. Postal Service state code or other regional jurisdiction code.	R	
	PHA09	ZIP Code Address U.S. Postal Service ZIP Code.	R	
	PHA10	Phone Number Complete phone number including area code. Do not include hyphens.	N	

Segment	Element ID	Element Name	Requirement	Notes
	PHA11	Contact Name Free-form name.	N	
	PHA12	Chain Site ID Store number assigned by the chain to the pharmacy location. Used when the PMP needs to identify the specific pharmacy from which information is required.	N	If the pharmacy has multiple locations, please submit the chain site ID (location ID).
	PHA13	Pharmacy Permit/License Number Identification assigned to the pharmacy by the Licensing Board. To be utilized for non-controlled substances (e.g., gabapentin, Insulin) only when the pharmacy does not have an NPI number or DEA number (e.g., veterinary pharmacy). In this instance, leave PHA01 and PHA03 blank and insert the pharmacy's Mississippi license number in PHA13.	S	
PAT: Patient Information (required) Used to report the patient's name and basic information as contained in the pharmacy record.				
	PAT01	ID Qualifier of Patient Identifier Code identifying the jurisdiction that issues the ID in PAT03.	S	
	PAT02	ID Qualifier Code to identify the type of ID in PAT03. If PAT02 is used, PAT03 is required. 01 Military ID 02 State Issued ID 03 Unique System ID 04 Permanent Resident Card (Green Card) 05 Passport ID 06 Driver's License ID 07 Social Security Number 08 Tribal ID	S	
	PAT03	ID of Patient Identification number for the patient as indicated in PAT02. An example would be the driver's license number. Note: This field can only be populated with code 09 or 10 when provided on the prescription.	S	
	PAT04	ID Qualifier of Additional Patient Identifier Code identifying the jurisdiction that issues the ID in PAT06.	N	

Segment	Element ID	Element Name	Requirement	Notes
	PAT05	Additional Patient ID Qualifier Code to identify the type of ID in PAT06 if the PMP requires a second identifier. If PAT05 is used, PAT06 is required. 01 Military ID 02 State Issued ID 03 Unique System ID 04 Permanent Resident Card 05 Passport ID 06 Driver's License ID 07 Social Security Number 08 Tribal ID 99 Other (agreed upon ID)	N	
	PAT06	Additional ID Identification that might be required by the PMP to further identify the individual. An example might be that in PAT03 driver's license is required and in PAT06 Social Security number is also required.	N	
	PAT07	Last Name Patient's last name.	R	
	PAT08	First Name Patient's first name.	R	
	PAT09	Middle Name Patient's middle name or initial if available.	N	
	PAT10	Name Prefix Patient's name prefix such as <i>Mr.</i> or <i>Dr.</i> , if available.	N	
	PAT11	Name Suffix Patient's name suffix such as <i>Jr.</i> or <i>the III</i> , if available	N	
	PAT12	Address Information – 1 Free-form text for address information.	R	
	PAT13	Address Information – 2 Free-form text for additional address information.	N	
	PAT14	City Address Free-form text for city name.	R	
	PAT15	State Address U.S. Postal Service state code or other regional jurisdiction code.	R	
	PAT16	ZIP Code Address U.S. Postal Service ZIP code. Do not include hyphens. Note: Populate with zeros if patient address is outside the U.S.	R	

Segment	Element ID	Element Name	Requirement	Notes
	PAT17	Phone Number Complete phone number including area code. Do not include hyphens.	R	
	PAT18	Date of Birth Date patient was born. Format: CCYYMMDD	R	
	PAT19	Gender Code Code indicating the sex of the patient. - F Female - M Male - U Unknown	R	
	PAT20	Species Code Used if required by the PMP to differentiate a prescription for an individual from one prescribed for an animal. 01 Human 02 Veterinary Patient	S	
	PAT21	Patient Location Code Code indicating where patient is located when receiving pharmacy services. 03 Nursing Home 04 Long-Term/Extended Care 05 Rest Home 07 Skilled-Care Facility 11 Hospice 99 Other	N	If known, choose the code correspondig to the patient location when receiving pharmacy services.
	PAT22	Country of Non-U.S. Resident Used when the patient's address is a foreign country.	N	
	PAT23	Name of Animal Used if required by the PMP for prescriptions written by a veterinarian and the pharmacist has access to this information at the time of dispensing the prescription.	S	If the prescription is for an animal, this is required.
DSP: Dispensing Record (required) Used to identify the basic components of a dispensing of a given prescription order including the date and quantity.				

Segment	Element ID	Element Name	Requirement	Notes
	DSP01	Reporting Status DSP01 requires one of the following codes, and an empty or blank field no longer indicates a new prescription transaction: 00 New Record (indicates a new prescription dispensing transaction) 01 Revise (indicates that one or more data element values in a previously submitted transaction are being revised) 02 Void (message to the PMP to remove the original prescription transaction from its data, or to mark the record as invalid or to be ignored). <i>*Note: For prescriptions voided with code “02”, a limited data set is being offered as an option PDMPs can elect to use rather than requiring the entire prescription to be voided. This option is offered in order to streamline the process in the pharmacy when voiding a prescription.</i>	R	
	DSP02	Prescription Number Serial number assigned to the prescription by the pharmacy.	R	
	DSP03	Date Written Date the prescription was written (authorized). Format: CCYYMMDD	R	
	DSP04	Refills Authorized The number of refills authorized by the prescriber.	R	
	DSP05	Date Filled Date prescription was filled. Format: CCYYMMDD	R	
	DSP06	Fill Number Number of the fill of the prescription. 00 indicates New Rx; additional fills beyond the initial fill are numbered sequentially from 01-99.	R	
	DSP07	Product ID Qualifier Used to identify the type of product ID contained in DSP08. 01 NDC 06 Compound	R	
	DSP08	Product ID Full 11-digit NDC number, created by adding a leading zero to the appropriate segment to result in a 5-4-2 formatted NDC number, without punctuation. If 06 Compound is indicated in DSP07, use 99999 as the first five characters (the last 6 digits are at the dispenser’s discretion; CDI then becomes required.	R	

Segment	Element ID	Element Name	Requirement	Notes
	DSP09	Quantity Dispensed Number of metric units dispensed in metric decimal format. Example: 2.5 <i>Note: For compounds show the first quantity in CDI04.</i>	R	
	DSP10	Days' Supply Estimated number of days the medication will last.	R	
	DSP11	Drug Dosage Units Code Identifies the unit of measure for the quantity dispensed in DSP09. 01 Each 02 Milliliters (ml) 03 Grams (gm)	R	
	DSP12	Transmission Form of Rx Origin Code Code indicating how the pharmacy received the prescription. 01 Written Prescription 02 Telephone Prescription 03 Telephone Emergency Prescription 04 Fax Prescription 05 Electronic Prescription 06 Transfer/Forwarded 99 Other	N	
	DSP13	Partial Fill Indicator Used when the quantity in DSP 09 is less than the metric quantity per dispensing authorized by the prescriber. This dispensing activity is often referred to as a split filling. 00 Not a Partial Fill 01 First Partial Fill <i>Note: For additional fills per prescription, increment by 1. So, the second partial fill would be reported as 02, up to a maximum of 99.</i>	N	
	DSP14	Pharmacist National Provider Identifier (NPI) Identifier assigned to the pharmacist by CMS. This number can be used to identify the pharmacist dispensing the medication.	N	
	DSP15	Pharmacist State License Number This data element can be used to identify the pharmacist dispensing the medication. Assigned to the pharmacist by the Licensing Board.	N	

Segment	Element ID	Element Name	Requirement	Notes
	DSP16	Classification Code for Payment Type Code identifying the type of payment (i.e., how it was paid for). 01 Private Pay 02 Medicaid 03 Medicare 04 Commercial Insurance 05 Military Installations and VA 06 Workers' Compensation 07 Indian Nations 99 Other	R	
	DSP17	Date Sold Used to determine the date the prescription left the pharmacy, not the date it was filled, if the dates differ. Format: CCYYMMDD	N	
	DSP18	RxNorm Code Qualifier RxNorm Code that is populated in the DRU-010-09 field in the SCRIPT transaction. 01 Semantic Clinical Drug (SCD) 02 Semantic Branded Drug (SBD) 03 Generic Package (GPCK) 04 Branded Package (BPCK)	N	
	DSP19	RxNorm Code Used for electronic prescriptions to capture the prescribed drug product identification.	N	
	DSP20	Electronic Prescription Reference Number This field should be populated with the Initiator Reference Number from field UIB-030-01 in the SCRIPT transaction.	N	
	DSP21	Electronic Prescription Order Number This field should be populated with the Initiator Control Reference from field UIH-030-01 in the SCRIPT standard.	N	
	DSP22	Quantity Prescribed This field adds clarity to the value reported in DSP13, Partial Fill Indicator. <i>Note: ASAP 4.2B increases this field size to a maximum of 100 characters.</i>	N	
	DSP23	Rx SIG This field captures the actual directions printed on the prescription vial label.	N	

Segment	Element ID	Element Name	Requirement	Notes
	DSP24	Treatment Type This field is used to explain the reason for an opioid prescription. If the prescription is not for an opioid, this field should not be used. 01 Not used for opioid dependency treatment 02 Used for opioid dependency treatment 03 Pain associated with active and aftercare cancer treatment 04 Palliative care in conjunction with a serious illness 05 End-of-life and hospice care 06 A pregnant individual with a pre-existing prescription for opioids 07 Acute pain for an individual with an existing opioid prescription for chronic pain 08 Individuals pursuing an active taper of opioid medications 09 Patient is participating in a pain management contract 10 Acute Opioid Therapy 11 Chronic Opioid Therapy 99 Other (trading partner agreed upon reason) <i>*Note: Codes 03-11 can only be reported if the PMP has mandated that they be provided by the prescriber on the prescription.</i>	N	If the prescription is not for an opioid drug, select 99.
	DSP25	Diagnosis Code This field is used to report the ICD-10 code or CDT. If required by a PDMP, this field would be populated only when the ICD-10 or CDT code is included with the prescription. Exclude the decimal point when reporting this field.	N	
PRE: Prescriber Information (required) Used to identify the prescriber of the prescription.				
	PRE01	National Provider Identifier (NPI) Identifier assigned to the prescriber by CMS.	S	

Segment	Element ID	Element Name	Requirement	Notes
	PRE02	DEA Number Identifying number assigned to a prescriber or an institution by the Drug Enforcement Administration (DEA). <i>Note: This field is required when the prescription is for a DEA-defined controlled substance.</i>	R	If the prescription is for a non-controlled substance such as gabapentin, and the prescriber does not have a DEA, leave PRE02 blank and enter the prescriber's NPI in PRE01. If the prescriber is a veterinarian and has no DEA, then they can utilize PRE04.
	PRE03	DEA Number Suffix Identifying number assigned to a prescriber by an institution when the institution's number is used as the DEA number.	S	If the DEA a prescriber uses (e.g., resident or intern) is a hospital facility ID, submit the DEA suffix.
	PRE04	Prescriber License Number Identification assigned to the prescriber by the Licensing Board of a PMP or jurisdiction.	S	This field should only be used when a prescriber does not possess a DEA or NPI.
	PRE05	Last Name Prescriber's last name.	R	
	PRE06	First Name Prescriber's first name.	R	
	PRE07	Middle Name Prescriber's middle name or initial.	N	
	PRE08	Phone Number Complete phone number including area code. Do not include hyphens.	N	
	PRE09	XDEA Number This field is in addition to Treatment Type in the DSP segment. This gives PDMPs the option to require the XDEA Number (NADEAN) in the PRE segment.	N	

Segment	Element ID	Element Name	Requirement	Notes
	PRE10	Jurisdiction or State Issuing Prescriber License Number Use this field to further identify the information provided in PRE04.	N	
CDI: Compound Drug Ingredient Detail (situational) Use of this segment is required when medication dispensed is a compound and one of the ingredients is a PMP reporting drug. If more than one ingredient is for a prescription monitoring program reporting drug, then this would be incremented by one for each compound ingredient being reported. If CDI is filled in, the NDC of DSP08 must be 9999999999.				
	CDI01	Compound Drug Ingredient Sequence Number First reportable ingredient is 1; each additional reportable ingredient is incremented by 1.	S	If DSP07 = 06 (compound), then all elements of the CDI segment are required.
	CDI02	Product ID Qualifier Code to identify the type of product ID contained in CDI03. 01 NDC	S	
	CDI03	Product ID Full 11-digit NDC number, created by adding a leading zero to the appropriate segment to result in a 5-4-2 formatted NDC number, without punctuation.	S	
	CDI04	Compound Ingredient Quantity Metric decimal quantity of the ingredient identified in CDI03. Example: 2.5	S	
	CDI05	Compound Drug Dosage Units Code Identifies the unit of measure for the quantity dispensed in CDI04. 01 Each (used to report as package) 02 Milliliters (ml) (for liters, adjust to the decimal milliliter equivalent) 03 Grams (gm) (for milligrams, adjust to the decimal gram equivalent)	S	
AIR: Additional Information Reporting (situational) Used when issued serialized Rx pads are used, the PMP requires information on the person dropping off or picking up the prescription, or for data elements not included in other detail segments. Note: If this segment is used, at least one of the data elements (fields) will be required.				
	AIR01	State Issuing Rx Serial Number U.S.P.S. state code or other regional jurisdiction code that issued serialized prescription blank. This is required if AIR02 is used.	N	
	AIR02	State Issued Rx Serial Number Number assigned to issued serialized prescription blank.	N	

Segment	Element ID	Element Name	Requirement	Notes
	AIR03	Issuing Jurisdiction Code identifying the jurisdiction that issues the ID in AIR04. Used if required by the PMP and AIR04 is equal to 02 or 06.	N	
	AIR04	ID Qualifier of Person Dropping Off or Picking Up Rx Used to identify the type of ID contained in AIR05 for person dropping off or picking up the prescription. 01 Military ID 02 State Issued ID 03 Unique System ID 04 Permanent Resident Card (Green Card) 05 Passport ID 06 Driver's License ID 07 Social Security Number 08 Tribal ID	N	If AIR06 is anything but 01, AIR04 is required.
	AIR05	ID of Person Dropping Off or Picking Up Rx ID number of patient or person picking up or dropping off the prescription.	N	If AIR06 is anything but 01, AIR05 is required.
	AIR06	Relationship of Person Dropping Off or Picking Up Rx Code indicating the relationship of the person. 01 Patient 02 Parent/Legal Guardian 03 Spouse 04 Caregiver 99 Other	N	If AIR06 is anything but 01, AIR07 and AIR08 are required
	AIR07	Last Name of Person Dropping Off or Picking Up Rx Last name of person picking up the prescription.	N	
	AIR08	First Name of Person Dropping Off or Picking Up Rx First name of person picking up the prescription.	N	
	AIR09	Last Name or Initials of Pharmacist Last name or initials of pharmacist dispensing the medication.	N	
	AIR10	First Name of Pharmacist First name of pharmacist dispensing the medication.	N	

Segment	Element ID	Element Name	Requirement	Notes
	AIR11	Dropping Off/Picking Up Identifier Qualifier Additional qualifier for the ID contained in AIR05 01 Person Dropping Off 02 Person Picking Up 03 Unknown/Not Applicable	N	
TP: Pharmacy Trailer (required) Used to identify the end of data for a given pharmacy and provide the count of the total number of detail segments reported for the pharmacy, including the PHA and TP segment.				
	TP01	Detail Segment Count Number of detail segments included for the pharmacy including the pharmacy header (PHA) and the pharmacy trailer (TP) segments.	R	
TT: Transaction Trailer (required) Used to indicate the end of the transaction and provide the count of the total number of segments included in the transaction.				
	TT01	Transaction Control Number Identifying control number that must be unique. Assigned by the originator of the transaction. Must match the number in TH02.	R	
	TT02	Segment Count Total number of segments included in the transaction including the header and trailer segments.	R	

Appendix B: ASAP Zero Report Specifications

The following table contains the required definitions for submitting zero reports via SFTP or manual upload to the Mississippi PMP. It lists the **Segment** and **Element ID** with pre-populated data to be used as an example for constructing a zero report. For more details regarding these Segment or Elements IDs, or for details on reporting actual dispensations, please refer to [Appendix A: ASAP 4.2B Specifications](#).

Segment	Element ID	Element Name	Requirement
TH: Transaction Header (required)			
	TH01	4.2B	R
	TH02	123456	R
	TH05	20220501	R
	TH06	223000	R
	TH07	P	R
	TH09	\\	R
IS: Information Source (required)			
	IS01	7705555555	R
	IS02	PHARMACY NAME	R
	IS03	Date Range of Report #YYYYMMDD#-#YYYYMMDD#	R
PHA: Pharmacy Header (required)			
	PHA03	ZZ1234567	R
PAT: Patient Information (required)			
	PAT07	REPORT	R
	PAT08	ZERO	R
DSP: Dispensing Record (required)			
	DSP05	20220501	R
PRE: Prescriber Information (required; can be null as follows: PRE*****\)			
CDI: Compound Drug Ingredient Detail			
AIR: Additional Information Reporting			
TP: Pharmacy Trailer (required)			
	TP01	7	R
TT: Transaction Trailer (required)			
	TT01	123456	R
	TT02	10	R

Sample Zero Report

The following example illustrates a zero report using the above values.

```

```

Appendix C: SFTP Configuration

This appendix describes the SFTP configurations required to upload your data to PMP Clearinghouse.

Note: Submitting data via SFTP requires that you have an existing PMP Clearinghouse account with SFTP access.

- If you need to create a PMP Clearinghouse account, please refer to [Creating Your Account](#). You will be able to set up your SFTP account during the account creation process.
- If you have an existing PMP Clearinghouse account but do not have SFTP access, please refer to [Adding SFTP Access to an Upload Account](#).

SFTP Connection Details

Hostname: `sftp.submissions.healthcarecoordination.net`

Bamboo Health recommends that you use the hostname when configuring the connection rather than the IP address, as the IP address is subject to change.

Port: 22

Note: The port will always be 22.

- **Credentials:** Your SFTP account credentials (username and password) can be found within the PMP Clearinghouse website. To locate your credentials, [log in to PMP Clearinghouse](#), then click **Account > SFTP Details > Edit**.

Your username cannot be modified; however, you can update your password.

Note: Your current SFTP password cannot be seen or recovered. If you have forgotten or lost it, you will need to create a new one. For more information on changing the SFTP password, please refer to [Adding SFTP Access to an Upload Account](#).

Once you have established SFTP access, you can test the SFTP connection, but you will not be able to submit data to a PMP until your account has been approved by the PMP administrator.

PMP Subfolders

PMP Clearinghouse is the data repository for numerous PMPs. As such, data submitted via SFTP must be placed in the appropriate folder for the PMP for which you are submitting data so that it can be properly imported to that PMP. The creation of subfolders must be done outside of the PMP Clearinghouse website using third-party software, such as an SSH client or a command line utility. Files placed in the root/home directory of the SFTP server will not be imported, as this will cause the dispensing entity to appear as noncompliant/delinquent.

Your pharmacy software will need to be configured to place files in the appropriate PMP folder when submitting. You may need to contact your software vendor for additional assistance with this process.

NOTE: Capitalization of the abbreviated PMP folders' names has no bearing on whether or not Clearinghouse processes the files; however, some pharmacy systems, especially *nix-based systems, will require that the exact case is used when specifying the target folder.

There are two methods by which to create PMP subfolders for SFTP submissions:

- I. **Via SSH client (e.g., WinSCP, FileZilla, etc.)**
 - a. Log in to your SFTP account.
 - b. Create the required directories under */homedir*.

2. **Via command prompt**
 - a. Log in to your SFTP account using command prompt.
 - b. Type “**mkdir**” followed by a space and then the PMP abbreviation you are using (e.g., **mkdir MS**).

NOTE: The PMP folder must be titled with the two-letter abbreviation as specified above.

Public (SSH/RSA) Key Authentication

PMP Clearinghouse supports SSH key authentication. The generation of the key is outside the scope of this document; however, general guidelines about the key, along with how to import/load it, are provided below.

Note: *PGP Encryption is not supported.*

- **Supported Key Types:**
 - SSH-2 RSA 2048 bit length
- **Unsupported Key Types:**
 - SSH-1 RSA
 - SSH-2 DSA
- **Correct Public Key Format:** If opened in a text editor, the key should look like the screenshot below.

- **Incorrect Public Key Format:** If opened in a text editor, the key SHOULD NOT look like the screenshot below.

Once the key has been generated, it should be named “**authorized_keys**”.

Notes:

- *There is no file extension.*
- *There is an underscore between the words **authorized** and **keys**.*

A `.ssh` subfolder needs to be created in the SFTP account's home directory. The "**authorized_keys**" file must be placed in the `.ssh` folder. The creation of this folder follows the same process as creating a PMP subfolder. Please refer to [PMP Subfolders](#) for steps on creating subfolders.
