This is the twenty-first (21st) edition of the **Bureau of Alcohol & Drug Resource Directory**. Programs receiving funding from the Mississippi Department of Mental Health are required to be certified according to its *Operational Standards for Mental Health, Intellectual/Developmental Disabilities and Substance Use Disorders Community Service Providers*. Other programs may voluntarily apply for this certification. Certification by the Mississippi Department of Mental Health may involve the entire service provider or particular programs or service areas (i.e. residential services, DUI assessment, outpatient services, etc.). The service providers listed in this directory are certified by the Mississippi Department of Mental Health.

INDEX 35
The Department of Mental Health, Bureau of Alcohol and Drug Services (BADS), administers the public system of substance use assessment, referral, prevention, treatment and recovery support services for individuals in Mississippi. BADS is also responsible for establishing, maintaining, and evaluating the network of service providers, which includes regional community mental health centers and other nonprofit community-based programs.

The Bureau of Alcohol and Drug Services has the responsibility of administering fiscal resources (state and federal) to the public system of prevention, treatment, and recovery supports for persons with substance use disorders. The overall goal of the state’s substance use disorder service system is to provide quality care within a continuum of accessible community-based services including: prevention, outpatient, withdrawal management, intensive outpatient, primary and transitional residential treatment, opioid treatment services and recovery support.

The Community Mental Health Centers (CMHCs) are the foundation of the substance use disorder delivery system. In addition, some centers offer services for specialized populations such as children and adolescents, the elderly and pregnant/parenting women.

There are also a number of other public and private agencies that provide prevention, treatment, and recovery support services. These entities also provide services for special populations and may receive funding from other state agencies, community service agencies or donations.
DESCRIPTION OF SERVICES

ACUTE PARTIAL HOSPITALIZATION PROGRAM
The Acute Partial Hospitalization Program for Substance Use Disorders provides an intensity of treatment similar to an inpatient environment, in a less restrictive, community-based setting. This short-term, intensive level of care allows individuals to benefit from consistent, structured treatment while maintaining their usual living arrangements in their communities. Acute partial hospitalization programs provide a less restrictive level of care for individuals discharged from inpatient programs, or a higher level of care when IOP is not effectively meeting the individual’s needs. The following programs are certified to provide Opioid Treatment services by the Mississippi Department of Mental Health:

- Colonial Management Group dba Metro Treatment of Mississippi, Meridian
- Jackson Comprehensive Treatment Clinic, Jackson
